Dear amos setiadi,
Your manuscript "POST - OCCUPANCY
EVALUATION ON PAGERJURANG
PERMANENT HOUSING AFTER MERAPI
VOLCANO ERUPTION" was checked by the
production staff for flaws that require
correcting.

There are a few comments on the
manuscript, which can be found in the file
attached. Please correct the manuscript
according to the comments and return it
until **12 October 2020**. Then we may
proceed with production.

Prof. Almantas Liudas Samalavičius

Reviewer A:

- An interesting research paper given the solution to a particular problem of housing within the disaster areas hit by natural disasters.
- The paper is not clear linguistically, it needs refinement and revision in terms of grammar and context.
- All Figures (1-7) are not referred to within the context of the research text.
- The method used to cite sources does not meet the requirements of the journal.
- The paper needs to give convincing justifications for the importance of research according to previous literature relevant to the subject that has not been given its right to go into discussion, which led to the superficiality in the presentation of a vital and important topic. This is due to the small number of sources and studies adopted in the current research.
- Discussion of the results was superficial and unconvincing, and the results obtained from the questionnaire are not classified properly and expressively and this can be seen in the confusion between all figures/tables (1-8).
- The conclusions were a repetition of the results without formulating and drawing the outputs.
